### IRL Collaborative Academia Research Exchange

#### Call for Submissions Research Poster Competition

October 26, 2009

IBM India Research Lab

ISID Campus, Institutional Area, Vasant Kunj, New Delhi

As the world becomes instrumented, interconnected, and intelligent, research is becoming more collaborative, interdisciplinary and global. The world has changed significantly in the last few years; today it is not only smaller and flatter, but also smarter. We, therefore, need a new level of collaboration and openness to understand the biggest and most complex challenges and explore new frontiers in technology and business.

To this direction, IBM India Research Lab, one of IBM's eight global labs, is organizing an *Open Research Workshop* on October 26, 2009 in New Delhi. The event will provide a tremendous opportunity to the academic community to address various industry issues, find innovative solutions, and seek new research directions. The topics of the workshop include:

*Track –I Service Design and Management, Process Engineering*  
*Track –II Information Management and Analytics*  
*Track –III Software Engineering and Programming Languages*  
*Track –IV Distributed, High-Performance, and Network Systems*

Besides posters, there will be a few invited sessions by eminent personalities from both academia and industry.

#### Poster Submission

Faculty members, researchers, students (graduate and undergraduate) from technical and management streams are encouraged to submit their abstracts (limited to two pages for each abstract), with details of the poster – title, author name, author title (Faculty/PhD/MTech/BTech/MBA) – to Raj K Sharma at [rajks@in.ibm.com](mailto:rajks@in.ibm.com) latest by August 20, 2009. Please mention “Poster Title” and “Track Name” in the subject of the mail. The program committee will select the best poster and announce it during the workshop.

- For each selected poster, a partial travel stipend (Rs 3000/-) will be provided to out-station students (i.e., other than NCR) to defray workshop attendance costs (travel, lodging etc).
- Students who are holding high ranks in their departments may also participate in the workshop, even if they don't have any posters to submit. Select students will be provided special assistance for their travel. Please send an email to Raj K Sharma ([rajks@in.ibm.com](mailto:rajks@in.ibm.com)) if you are interested in applying for travel assistance.

#### Important Dates:

Abstract Submission: August 20, 2009

Notification: September 20, 2009

Travel assistance request: September 10, 2009
